

Orthodontic patients come in all shapes and sizes. Royal has a wide range of chairs to match your wide range of patients.

OR3-A

Full-size chair with manual height adjustment. Standard headrest. Contoured backrest provides built-in arm support. Foot switch for recline/auto return. Sculpted base for extra stability.

OR2

Slimline chair with fixed base. Standard headrest. Swing-up arms. One switch for recline/auto return on backrest. Optional contoured backrest with built-in arm support (pictured on GP2, over).

OR3-S

Full-size chair with manual height adjustment. Magnetic headrest. Removable swing-out armrests. Foot switch for recline/auto return. Sculpted base for extra stability.

GP2 Dental Chair

Slimline chair with power base. Standard headrest. Swing-up armrests. Recline/auto return and base controls on chair back. Optional foot controls available.

GP2 with Contoured Backrest

Power base. Contoured backrest with built-in arm support, no armrests. Standard headrest. Recline/auto return and base controls on chair back. Optional foot controls available.

Signet 2210 Dental Chair

Full-size chair with power base. Magnetic headrest. Removable swing-out armrests. Recline/auto return and dual controls mounted on chair back. Sixty degree rotation. Optional foot controls available.
