C-Series Advantage

Modularity

Expansive catalog of standard modules allows cabinet configurations to fit your floor plan, including U- and L-shaped designs

Customization

Biotec creates unique designs and configurations via our in-house engineering and design team

Precision

Manufactured with state-of-the-art CNC equipment to achieve precise fit and installation

Componentry

40 years of locating superior quality componentry, purchased in volume, yields value and years of trouble free operation

Options

Select from dozens of available features to fit your budget and complement how you perform dentistry

Durability

Biotec utilizes modern cabinetry construction methods and commercial-grade materials to create cabinets built to last

Tax Advantage

Classified as capital equipment, Biotec cabinetry provides Section 179 tax write-offs, not available with built-in-place cabinetry

Central Divider Economics

Central Dividers complement open design concepts by providing patient privacy with the economics of serving two operatories with a single cabinet; offering shared x-ray access, working surfaces, and useful pass-thru storage.

Full Extension Drawers

Side Cabinet **Functionality**

Complete your operatory with matching doctor's and assistant's side cabinets. Side cabinets provide additional working surfaces, equipment storage, knee space, operatory prep and hand washing stations. Complementing uppers provide increased storage and dispense cup & hand towels.

Sterilization **Efficiency**

Sterilization centers embody a concentrated hub of traffic and synchronized activity. A proper design maintains sterilization protocols while maximizing productivity through efficient flow. Biotec excels at creating customized and productive steri-centers to fit every size and shape of room.

Disposal

Stowed waste bin and sharps container keep lab uncluttered. Add optional waste chute or electronic-assisted hands-free opener.

Soaking Tubs

Integrated soaking tubs nested in plexiglass cover. Sealed and covered Corian wrap-around splash contains spills.

Stainless Steel Sink

Deep 9" sink with pull-out faucet and soap dispenser. Optional HVE available.

Sterilization Tower

300 lb. drawer slides provide sturdy and efficient access to sterilizers.
